Website: greencrossindia.com | Email: greencrossremedies_2003@yahoo.co.in

Aceclofenac tab is widely prescribed for managing pain and inflammation associated with musculoskeletal conditions. Hetrofen 200 SR Tablet contains **Aceclofenac 200 mg sustained release**, offering prolonged action and better patient compliance. It is commonly used as a [pain relief tablet](#), [anti-inflammatory medicine](#), and [joint pain relief tablet](#) for chronic conditions.

Hetrofen 200 SR Tablet is a sustained-release aceclofenac tab used for long-lasting pain relief, inflammation control, and arthritis management. Manufactured by **Green Cross Remedies**, it ensures consistent efficacy and safety.

Composition

Each tablet contains:
Aceclofenac IP 200 mg
(Sustained Release)

This aceclofenac sustained release tablets 200 mg formulation ensures gradual drug release for extended pain control.

Dosage & Administration

- Usually **one tablet daily** or as prescribed.
- Take with food to reduce gastric irritation.
- **Do not crush or chew** (sustained-release).
The dosage depends on severity and clinical condition.

Uses & Indications

The aceclofenac tab is indicated for various chronic and acute conditions. It is a reliable arthritis pain relief medicine and anti-inflammatory drug used in:

- Osteoarthritis and rheumatoid arthritis
- Ankylosing spondylitis
- Back pain and muscle pain
- Joint pain, stiffness, and swelling
- Dental pain and post-operative pain
- Sports injuries and acute musculoskeletal pain

Mechanism of Action

Aceclofenac belongs to non-steroidal anti-inflammatory drugs (NSAIDs). It inhibits cyclooxygenase (COX) enzymes and reduces prostaglandin synthesis, providing effective pain relief and reducing inflammation for long-term conditions.

Side Effects

Common side effects may include nausea, vomiting, indigestion, abdominal pain, dizziness, and mild gastric irritation. Most are temporary, but consult a doctor if symptoms persist.

Contraindications & Interactions

- Hypersensitivity to NSAIDs.
- History of gastric ulcers or severe liver/kidney disease.
- Avoid with other NSAIDs; may interact with anticoagulants.
- Use caution with antihypertensives.

Storage & Pricing

Store below 25°C in a dry place, protected from sunlight. Keep out of reach of children.
MRP: Rs. 65.00 for 10 Tablets.

Expert Advice

- **Adherence:** Always take exactly as prescribed. Avoid skipping doses and do not discontinue prematurely, even if symptoms improve. Follow the prescribed dosage schedule strictly.
- **Administration:** Take with food to minimize gastric irritation. Do not combine with other painkillers unless advised by a healthcare professional.
- **Precautions:** Misuse or overuse of NSAIDs can increase the risk of gastrointestinal and cardiovascular side effects. Adequate hydration and regular monitoring are recommended during long-term use. Avoid alcohol consumption.
- **Red Flags:** Discontinue the medicine and consult your doctor immediately if you experience severe abdominal pain, vomiting, black stools, or allergic reactions (rash or swelling).
