Azithromycin 500 mg Tablet – AZIGO 500 Tablet

AZIGO 500 Tablet is a broad-spectrum Azithromycin antibiotic formulated for effective management of throat, chest, sinus, skin, and other bacterial infections. Manufactured under WHO-GMP compliant facilities, it ensures reliable safety, quality, and therapeutic efficacy.

Composition & Strength

Each film-coated AZIGO 500 Tablet contains:

- Azithromycin Dihydrate IP equivalent to Azithromycin 500 mg
- Dosage Form: Film-coated tablet

Azithromycin 500 mg Tablet Uses

- Throat infection and tonsillitis
- Chest infection and bronchitis
- Pneumonia
- Sinus infection
- Skin and soft tissue infection
- Ear infection
- Respiratory tract infections
- Certain urinary tract infections (UTI)

Mechanism of Action

Azithromycin belongs to the macrolide class of antibiotics. It inhibits bacterial protein synthesis by binding to the 50S ribosomal subunit, preventing bacterial growth and replication. Its long half-life ensures sustained antibacterial action.

Dosage & Administration

Typical dosage: 500 mg once daily for 3–5 days or as prescribed by a physician. Take once daily, with or without food. Swallow whole with water. Complete the full prescribed course and avoid skipping doses.

Side Effects

- Nausea
- Diarrhea
- Abdominal pain
- Headache
- Vomiting
- Rare: Allergic reactions, liver enzyme elevation, irregular heartbeat

Contraindications & Precautions

Contraindicated in patients hypersensitive to macrolide antibiotics and those with severe liver impairment. Use cautiously in patients with liver disease or cardiac arrhythmias. Avoid misuse to prevent antibiotic resistance.

Storage & MRP

Store below 25°C. Protect from moisture and sunlight. Keep out of reach of children. AZIGO 500 Tablet (MRP): ■123.60 / 5 Tablets

GREEN CROSS REMEDIES is a trusted pharmaceutical manufacturer in India, committed to quality, innovation, and compliance with WHO-GMP standards. AZIGO 500 Tablet reflects the company's dedication to delivering safe, effective, and reliable antibiotic formulations for healthcare professionals.
