Oral Rehydration Salts IP – Effective Solution for Dehydration

B LYTUP ORS Powder

Oral Rehydration Salts IP are medically recommended electrolyte formulations used for rapid rehydration during dehydration caused by diarrhea, vomiting, excessive sweating, or heat stroke. These salts restore essential electrolytes such as sodium, potassium, and glucose to maintain fluid balance in the body. B LYTUP ORS Powder is a scientifically formulated ORS powder that provides optimal electrolyte replenishment according to the WHO ORS formula. It helps maintain hydration levels, supports energy replenishment, and prevents electrolyte imbalance during illness or extreme heat. This electrolyte powder for dehydration is widely used in oral rehydration therapy, a globally accepted treatment method for dehydration and diarrhea.
