Rovixim Dry Syrup – Cefixime Oral Suspension IP (50 mg/5 ml)

Product Overview:

Cefixime Oral Suspension is a third-generation cephalosporin antibiotic widely prescribed for pediatric bacterial infections. Rovixim Dry Syrup is specially formulated for safe, effective, and convenient therapy in children suffering from throat, ear, urinary tract, and respiratory infections.

Composition:

Each 5 ml of reconstituted suspension contains:

Cefixime Trihydrate I.P equivalent to Anhydrous Cefixime – 50 mg.

Indications:

- Tonsillitis & Pharyngitis
- Otitis Media
- Bronchitis & Respiratory Infections
- Urinary Tract Infections
- Typhoid Fever (as prescribed)
- Genito-Urinary Infections
- Surgical Prophylaxis

Mechanism of Action:

Cefixime inhibits bacterial cell wall synthesis, preventing growth and multiplication of bacteria, leading to effective elimination of infection.

Dosage:

Dosage depends on age, weight, and severity of infection. Usually administered once or twice daily as prescribed by a pediatrician. Shake well before use.

Side Effects:

Nausea, diarrhea, stomach discomfort, mild rash. Rare allergic reactions require immediate medical attention.

Precautions:

Use cautiously in kidney disorders. Complete the full course. Do not discontinue prematurely.

Storage:

Store below 25°C. Protect from moisture. Use within prescribed duration after reconstitution.

Price:

Rovixim Dry Syrup (MRP): ₹51.00

Why Choose Rovixim?

- Quality-controlled manufacturing
- Accurate pediatric formulation
- Reliable antibacterial efficacy
- Trusted Indian pharmaceutical brand

About Green Cross Remedies:
