

# CLOPS 0.50 MD TABLET

## Clonazepam 0.50 mg Mouth Dissolving Tablet

CLOPS 0.50 MD Tablet is a mouth dissolving formulation of clonazepam, a benzodiazepine widely used in the management of anxiety disorders, panic attacks, seizure disorders, and anxiety-associated sleep disturbances. The mouth dissolving dosage form ensures faster onset of action and improved patient compliance, especially in patients who require quick symptomatic relief.

### **Composition**

Each uncoated mouth dissolving tablet contains:  
Clonazepam I.P. 0.50 mg  
Excipients q.s.

### **Indications & Uses**

- Anxiety disorders and acute anxiety episodes
- Panic disorder
- Seizure disorders including epilepsy
- Sleep disturbances associated with anxiety

### **Dosage & Administration**

Dosage should be as prescribed by the physician. Allow the tablet to dissolve on the tongue. Do not chew or swallow whole. Avoid abrupt discontinuation.

### **Mechanism of Action**

Clonazepam enhances the activity of GABA, an inhibitory neurotransmitter in the brain, resulting in reduced neuronal excitability and producing anxiolytic, sedative, and anticonvulsant effects.

### **Key Safety Information**

Common side effects may include drowsiness, dizziness, and fatigue. Avoid alcohol and other CNS depressants. Use with caution in elderly patients and those with liver or respiratory disorders.

### **Storage**

Store below 25°C. Protect from moisture and light. Keep out of reach of children.

**MRP: ■41.91 / 10 Tablets**
