

LINS Gel – Pain Relief Gel

Diclofenac Gel IP for Fast Muscle & Joint Pain Relief

Pain in muscles, joints, and soft tissues can significantly affect daily activities and mobility. Diclofenac gel IP is widely used as a topical NSAID that provides targeted pain relief without systemic effects associated with oral medicines.

LINS Gel is a fast-acting diclofenac diethylamine gel designed to relieve inflammation, stiffness, and pain associated with arthritis, sprains, strains, sports injuries, back pain, and muscle soreness. The combination of diclofenac diethylamine, methyl salicylate, menthol, and linseed oil provides both cooling and warming effects for quick comfort.
