

GREEN CROSS REMEDIES

Premium Liver Care Formulation

Heptiliv-Syrup

Tricholine Citrate and Sorbitol Syrup

Heptiliv-Syrup is a nicely-balanced **hepatoprotective syrup** formulated to help liver function, improve digestion, and help in the management of fatty liver conditions. This advanced **Tricholine Citrate Syrup** acts as a liver detox syrup and digestive liver syrup, supporting enhanced bile secretion, reducing fat accumulation, and promoting general liver wellness. It is widely regarded as a top liver syrup in India for patients seeking powerful **liver care medicine**.

Composition

Each 5 ml contains:

Tricholine Citrate – 275 mg

Sorbitol Solution (70%) – 3.575 gm

This combination provides **lipotropic factors** essential for healthy liver metabolism.

Uses and Indications

HEPTILIV Syrup is formulated for the following uses:

- **Liver Health Support:** Promotes and assists optimal liver function.
- **Appetite Stimulation:** Effective in stimulating appetite, especially for reduced hunger.
- **Nutritional Enhancement:** Controls nutritional deficiencies and aids nutrient absorption.
- **Fat Metabolism Aid:** Enhances fat metabolism inside the liver.
- **Adjunct Therapy:** Acts as an accessory therapy for liver-related conditions.
- **General Health Supplement:** Enhances overall health and combats fatigue.
- **Digestive Health Support:** Sorbitol aids digestion and promotes regular bowel movements.

Indications

The tricholine citrate and sorbitol syrup uses in-

clude:

- Fatty liver (NAFLD)
- Liver expansion (hepatomegaly)
- Indigestion and poor appetite
- Alcohol-induced liver damage
- Jaundice recovery aid
- Liver enzyme imbalance

Mechanism of Action

(Hepatoprotective Agent)

Tricholine Citrate works by improving fat metabolism in liver processes and preventing fat deposition in liver cells. It complements bile secretion as a *bile secretion enhancer* and supports detoxification. **Sorbitol** acts as a moderate osmotic agent and *digestive stimulant syrup*, enhancing bowel movement and digestion. Together, they function as an effective *cholagogue syrup* and liver detoxification medicine.

Dosage

The standard dose:

- **Adults:** 5–10 ml, 2–3 times daily
- **Children:** As prescribed by a doctor

Follow your medical doctor's instructions carefully for optimal results and safety.

Side Effects

Possible side effects:

- Mild diarrhea
- Abdominal pain
- Nausea

These are generally transient. Consult your health practitioner if symptoms persist.

Contraindications

- Hypersensitivity to components
- Severe dehydration or intestinal blockage
- Use carefully in diabetic patients
- Pregnant and breastfeeding women should seek medical advice.

Drug Interactions

- May interact with other liver or digestive medicines.
- Avoid concurrent use with strong laxatives.

Always inform your medical doctor about any on-going treatments.
