GREEN CROSS REMEDIES

Luliconazole Cream IP 1% w/w

Luliconazole Cream is a modern antifungal formulation widely prescribed for treating various fungal skin infections. Known for its potent activity and quick relief, it is commonly used as an antifungal cream for ringworm, athlete's foot, jock itch, and other dermatological conditions.

COMPOSITION

Each gram of cream contains:

Luliconazole IP 1% w/w

Clinically effective against a wide range of dermatophytes and fungi.

INDICATIONS

- Ringworm (Tinea corporis)
- Athlete's foot (Tinea pedis)
- Jock itch (Tinea cruris)
- Fungal infection in private parts
- Tinea Versicolor
- Candidiasis (Skin folds)

KEY BENEFITS

LOYLLA Cream, developed by Green Cross Remedies, contains Luliconazole 1% w/w. It ensures fast relief from itching, redness, and irritation with once-daily application. It is indicated for superficial and chronic skin fungal infections where quick symptom relief and eradication are required.

DOSAGE & APPLICATION

- Apply a thin layer to the affected area **once daily**.
- Clean and dry the area before application.
- Continue for 1–2 weeks as prescribed.
- Avoid tight bandages unless advised.

PRICE & STORAGE

MRP: Rs. 215.00 (30g)

MECHANISM OF ACTION

LOYLLA Cream works through a targeted antifungal process:

- **Ergosterol Inhibition:** Blocks lanosterol demethylase, crucial for fungal cell membranes.
- **Membrane Disruption:** Causes accumulation of toxic sterols, leading to cell death.
- **Broad Spectrum:** Effective against various dermatophytes and yeast species.

SIDE EFFECTS & SAFETY

Generally mild and temporary:

- Mild burning or redness
- Skin irritation or itching

Precautions: Avoid contact with eyes/mouth. Consult a doctor for use in children or pregnancy.

Store below 25°C in a dry place. Protect from direct sunlight.

EXPERT ADVICE

LOYLLA Cream should always be used exactly as prescribed. Do not discontinue therapy prematurely, even if symptoms improve, to prevent recurrence. Maintain personal hygiene and avoid sharing towels or clothing. Avoid using cosmetic products on the treated area during therapy.
