Cold & Flu Tablets – Phenta Tablet

Phenta Tablet is a scientifically formulated cold and flu tablet designed to provide multi-symptom relief. It effectively manages fever, runny nose, blocked nose, sneezing, sinus congestion, headache, and body pain. This trusted combination medicine offers fast and reliable relief from seasonal cold and flu symptoms.

Composition

- 1 Paracetamol IP 325 mg
- 2 Chlorpheniramine Maleate IP 2 mg
- 3 Phenylephrine Hydrochloride 5 mg

Uses & Indications

- 1 Fever and cold relief
- 2 Nasal congestion
- 3 Sneezing and runny nose
- 4 Sinus pressure and headache
- 5 Body pain
- 6 Upper respiratory infections

Mechanism of Action

Paracetamol reduces fever and pain, Chlorpheniramine controls allergic symptoms, and Phenylephrine relieves nasal congestion. Together, they provide complete multi-symptom relief.

Dosage

Adults: 1 tablet 2–3 times daily or as directed by a physician. Children: As prescribed.

Side Effects

- 1 Drowsiness
- 2 Dry mouth
- 3 Dizziness
- 4 Nausea

Storage

Store in a cool, dry place. Protect from light and moisture. Keep out of reach of children.

Price

Phenta Tablet (MRP): ■45.00 per 10 tablets

Expert Advice

Take Phenta Tablet exactly as prescribed. Do not exceed the recommended dose. Avoid alcohol as it may increase drowsiness. Patients with hypertension or liver disease should consult a doctor before use. Do not combine with similar cold medicines.
