Vilborn 200 SR Tablet is a progesterone sustained release tablets preparation containing Natural Micronized Progesterone 200 mg in a film-coated sustained release form. It is prescribed to support hormonal balance, maintain pregnancy, regulate menstrual cycles, and assist in fertility treatments such as IVF.

## Composition

Each Film Coated Sustained Release Tablet contains: Natural Micronized Progesterone 200 mg

## Indications & Uses

- Pregnancy support and recurrent miscarriage management
- IVF and assisted reproductive therapy support
- Irregular menstrual cycles and luteal phase defects
- Secondary amenorrhea
- Hormonal imbalance and menopausal symptoms
- Premenstrual syndrome (PMS)

## Mechanism of Action

Natural micronized progesterone binds to progesterone receptors in the uterus, stabilizes and maintains the endometrial lining, reduces uterine contractility, supports embryo implantation, and modulates immune response during pregnancy. The sustained release technology ensures stable hormone levels and improved tolerability.

## Dosage & Administration

As prescribed by a gynecologist or fertility specialist.

Swallow the tablet whole with water. Do not crush or chew.

Duration of therapy depends on clinical condition and physician advice.

## Side Effects

Possible mild effects may include drowsiness, nausea, breast tenderness, headache, and bloating. Seek immediate medical attention in case of severe abdominal pain, vision disturbances, or allergic reactions.

## Contraindications & Precautions

Avoid in hypersensitivity to progesterone, undiagnosed vaginal bleeding, active thromboembolic disorders, and severe liver dysfunction. Use under strict medical supervision.

## Storage Instructions

Store below 25°C. Protect from moisture and sunlight. Keep out of reach of children. Do not use after expiry date.

**Progesterone 200 mg Tablet Price – Vilborn 200 SR Tablet (MRP): ₹327.84**
