## ROZUSTEEN Gold 10 Capsule

**Rosuvastatin 10 mg + Clopidogrel 75 mg + Aspirin 75 mg**

Rosuvastatin Aspirin and Clopidogrel Capsules are a scientifically designed cardiac combination used in the prevention and management of cardiovascular diseases. This triple-therapy formulation combines a potent statin with dual antiplatelet agents to address multiple risk factors associated with heart attacks, stroke, and atherosclerotic cardiovascular disease. By effectively lowering cholesterol levels and preventing harmful blood clot formation, this capsule plays a critical role in long-term heart health, especially in high-risk patients.

### Composition:

- Rosuvastatin Calcium IP – 10 mg
- Clopidogrel Bisulphate IP – 75 mg
- Aspirin – 75 mg

### Indications & Uses:

- Prevention of heart attack and stroke
- Management of coronary artery disease
- Post-angioplasty and post-stent therapy
- Secondary prevention in atherosclerotic cardiovascular disease
- Patients with high cholesterol and platelet aggregation risk

### Mechanism of Action:

Rosuvastatin reduces LDL cholesterol by inhibiting HMG-CoA reductase. Clopidogrel prevents platelet aggregation by blocking the P2Y<sub>12</sub> receptor. Aspirin inhibits COX-1, reducing thromboxane A<sub>2</sub> formation and clot development. Together, they provide synergistic protection against plaque progression and cardiovascular events.

### Dosage & Administration:

Usually taken once daily after meals or as directed by the physician. Swallow whole with water. Do not crush or chew. Do not discontinue without medical advice.

### Precautions & Safety:

- Monitor liver enzymes and lipid profile periodically
- Use cautiously in elderly patients
- Contraindicated in active bleeding disorders
- Inform doctor about anticoagulants, antibiotics, antifungals or NSAIDs
