WEQGLO Cream – Advanced Triple Combination Therapy

Hydroquinone Tretinoin Mometasone Skin Lightening Cream

WEQGLO Cream from Green Cross Remedies is a scientifically balanced triple-combination therapy designed to target melasma, dark patches, uneven skin tone, and stubborn hyperpigmentation. It works synergistically to reduce pigmentation, improve skin clarity, and restore a brighter complexion.

Composition

- 1 Hydroquinone USP (2% w/w)
- 2 Tretinoin USP (0.025% w/w)
- 3 Mometasone (0.1% w/w)

Benefits

- 1 Reduces pigmentation and dark patches
- 2 Supports melasma treatment
- 3 Improves uneven skin tone and texture
- 4 Helps reduce acne-related pigmentation
- 5 Provides anti-inflammatory support

Uses & Indications

- 1 Melasma and hyperpigmentation
- 2 Post-acne dark marks
- 3 Sun-induced pigmentation
- 4 Uneven skin tone correction
- 5 Inflammatory pigmentation disorders

Mechanism of Action

Hydroquinone reduces melanin production by inhibiting tyrosinase. Tretinoin enhances skin cell turnover and improves penetration of hydroquinone. Mometasone reduces inflammation and irritation, improving treatment tolerability.

Dosage & Application

- 1 Apply thin layer once daily at night.
- 2 Clean and dry affected area before use.

- 3 Use sunscreen during daytime.
- 4 Do not exceed recommended duration.

Side Effects

- 1 Mild redness or dryness
- 2 Peeling or burning sensation
- 3 Skin sensitivity
- 4 Rare allergic reactions

Contraindications & Precautions

- 1 Not recommended during pregnancy unless prescribed
- 2 Avoid use on broken or infected skin
- 3 Avoid prolonged unsupervised use
- 4 Limit sun exposure

Storage Instructions

- 1 Store below 25°C
- 2 Keep away from direct sunlight
- 3 Do not freeze
- 4 Keep out of reach of children
